REQUEST FOR PROPOSAL
UTILIZATION AND DESIGN STUDY
FOR
THE CIVIC CENTER MUSIC HALL

INVITATION

The Oklahoma City Public Property Authority (OCPPA) and the Civic Center Foundation (Foundation) are requesting proposals from consultants for the completion of a Utilization and Design study for the Civic Center Music Hall (Facility), as described herein. Interested and qualified consultants should have substantial experience in the performance of analysis for governmental agencies and offer specialized expertise in the operation of performing arts facilities.

BACKGROUND

The Civic Center Music Hall, is owned by the City of Oklahoma City, and has been in operation since 1937. In September of 2001, the majority of the facility was renovated. The City and Foundation are committed to establishing the Facility as a premier venue for the performing arts.

The Civic Center Music Hall is a performing arts facility with approximately 280,000 square feet of space. It includes the Thelma Gaylord Theatre, which was renovated in 2001, and is a multiple purpose theatre with 2,498 seats. The Freede Little Theatre was originally constructed in 1937 with seating capacity of 394. It received minor renovations in 2001 to the lobby, dressing rooms and the backstage area. City Space is a rehearsal hall converted to a black box in 2005 with seating capacity of 100. The Meinders Hall of Mirrors and Joel Levine Rehearsal Hall are primarily reception, banquet, and meeting rooms. Square footage is 5,300 and 3,400 respectfully.

The Facility hosts a wide variety of theatrical, musical and dance productions, as well as banquets and reception events. Staged performances include national touring Broadway, regional theatre, classical, pops and youth symphony orchestras, ballet, choral, premier entertainers including James Taylor, Paul Simon, Bill Maher, Kathy Griffin, Bill Cosby, Norah Jones, Alyson Krauss and other concerts.

The Facility is located at 201 North Walker Ave., positioned at the west end of an economically revitalized downtown Oklahoma City.

Attachment "B" provides information on events booked July 1, 2012 through June 30, 2013.

SCOPE OF WORK

The awarded consultant will be required to evaluate the physical condition of the Facility and equipment; recommend renovations and identify associated costs necessary to make the Facility a premier venue from a production perspective as well as an audience perspective; perform a market demand study; and analyze the financial feasibility of upgrading the Facility. The following tasks are provided for illustrative purposes, and not meant to be all-inclusive.

1. Conduct a comprehensive technical/physical assessment of the Facility's existing conditions, including but not limited to the following areas.
 - a. Exterior and interior aesthetics
 - b. Entrance, lobby, restrooms and related amenities.
 - c. Shelled in spaces
 - d. Defined suite spaces on all levels
 - e. Freede Little Theatre
 - f. City Space
 - g. Joel Levine Rehearsal Hall
 - h. Box Office locations
 - i. Coffee shop

It is expected that the process for performing this analysis consists of direct observation, review and interpretation of documents, interviews with personnel and input from management, and evaluation of the actual condition of the major physical elements, systems and operations.

During agreed upon site visits, building staff will be available through a coordinated effort to discuss maintenance issues, past repair/replacement projects, and in general provide information (including drawings and plans) and access to assist in the creation of the Facility Condition Analysis.

2. Identify current level of amenities, then recommend necessary and/or desirable modifications, enhancements, equipment acquisition and refurbishment, and associated costs.
3. Identify the current and projected market demand for any proposed upgraded space, including current and probable users and level of usage. Primary and secondary markets should be identified, with consideration for the types of events relative to each market area. Report on subsidy levels of other comparable facilities, including a review of the source of support.
4. Identify the potential highest and best use of each space within the Facility, and how that relates to its current level and type of usage and current revenues and expenses. In developing the recommended modifications, enhancements and equipment acquisitions as specified in paragraph 3 above, consideration should be given to creatively maximizing the potential use of each upgraded area. This should allow for the greatest access to the Facility by a wide variety of users and audience members, while taking into consideration the needs and requirements of the Facility's current users.
5. Identify direct and indirect benefits of each upgraded space to the Oklahoma City Public Property Authority and the Civic Center Foundation. Include potential benefits that are not readily quantifiable, such as impact on surrounding restaurants and other retail businesses.
6. Analyze the financial feasibility of each upgraded space, considering cost estimate of recommended improvements, the condition of the current market, and other direct and indirect benefits.
7. Provide renderings that illustrate recommended renovations and upgrades.

8. Prepare and present to the Oklahoma City Public Property Authority and the Civic Center Foundation Board of Directors, a report containing summary findings and recommendations as specified in this Scope of Work.
